SPC Flooring

Herringbone Pattern Planks

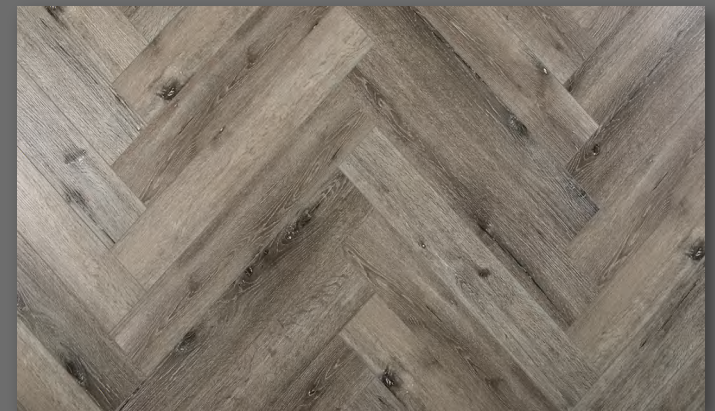

The herringbone pattern is named for a fancied resemblance to the bones of a fish such as a herring, And then it becomes one of the most popular flooring designs in the world- -an arrangement of rectangles used for floor tilings. One set of our Herringbone flooring has A & B type of pattern. herringbone arranges planks in a zig-zag pattern to produce beautiful results

SPC Flooring

Chevron Pattern Planks

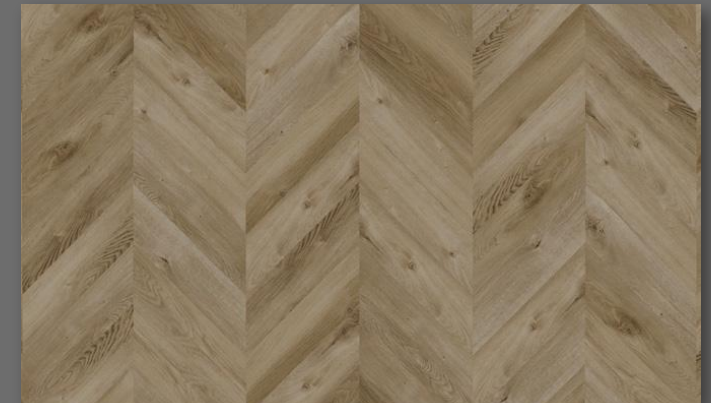

Darekaou SPC Chevron flooring features a pattern where planks or tiles are cut at an angle, typically 45° or 60°, and aligned in a V-shape. Unlike Herringbone, where rectangular planks interlock in a staggered pattern, Chevron creates a seamless zigzag effect. This design results in a dynamic and elegant flow that draws the eye and adds depth to any room spaces.
